Lenovo ThinkSmart

Lenovo ThinkSmart Core + Controller

Powering dynamic, scalable, and sophisticated high-impact spaces.

Windows 11

Meetings don't have to be limited by technology. Lenovo ThinkSmart Core + Controller is a versatile and scalable videoconferencing computing solution that makes it possible for boardrooms, custom dynamic spaces, training rooms, and everywhere in between to be designed for their purpose, not their size. ThinkSmart Core + Controller creates the foundation to build digital spaces that feel like a face-to-face experience.

Built for maximum reliability and 24/7/365 operation, every detail of this collaboration essential is engineered with intention to minimize disruption and technology failures. The Intel vPro® platform with Intel® Core™ processor running on Windows 11 delivers responsive performance, reliable connectivity, and comprehensive hardware-based security, all while maintaining energy efficiency.

Help customers improve engagement with technology that seamlessly integrates with collaboration platforms, dynamic audio components, and excellent video. It's easy to scale up or down and can be used with both certified Microsoft Teams Rooms and Zoom Rooms devices to amplify technology investments.

intel vPRO
PLATFORM

Intel vPro® platform with Intel® Core™ i5 processor

Key selling points

- Foundational technology to make digital meetings feel like face-to-face experiences.

- Certified for both Microsoft Teams Rooms and Zoom Rooms for the flexibility to amplify your customers' technology investments.

- Intel vPro® platform with Intel® Core™ processor for responsive performance, reliable connectivity, and comprehensive hardware-based security.

- Multiple device ports, so every meeting space can be purposefully designed.

- Choice of 10.1" 10-point touch anti-fingerprint, anti-glare controller.

- Thoughtful features like the hinged backdoor that locks down wires and a minimized external reset button to prevent users from accidental disconnection.

- Built-in VESA mount and Wi-Fi antenna for easy setup and installation.

- Quiet fanless enclosure and wider operational temperatures to hide the ThinkSmart Core in a closet or server room.

- Comes with ThinkSmart-Start, which includes one year of Deploy and Maintain, plus one year of Lenovo ThinkSmart Manager Premium.

Technical specifications

- Windows 11 operating system
- Intel® 11th Gen Core™ i5 processor on Intel vPro® platform
- 16 GB (Dual Channel) DDR4 3200MHz memory
- 256GB PCIe TLC SSD storage
- Intel® Iris® X^e graphics
- Extensive I/O ports to customize space
- Choice of Lenovo IP Controller or Lenovo ThinkSmart Controller

Where we win

Worldwide certification for smooth deployment in 100+ markets.

Flexible solution for both Microsoft Teams Rooms and Zoom Rooms, plus multiple ports.

Purpose-built design for elevated user experience.

Out-of-the-box readiness with built-in Wi-Fi antenna and integrated VESA mount.

Operating range from 10°C to 35°C for long-term reliability.
