

# How to Factory Reset the ThinkSmart View Plus

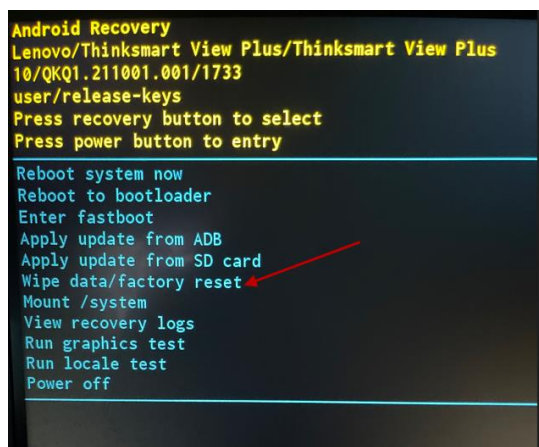

This Document covers how to Factory reset the ThinkSmart View Plus.

To factory reset it - simply pull the power cord from the wall or power supply.

Once the power cord has been disconnected press and hold the larger button on the right rear and plug power back in.

After a time – a menu will pop up (Let go of the button now) and about the 5th or 6th options down will be the factory reset.

## Knowledgebase Article

Press the little button (indented button) above the big button to move the cursor... then press the big button to select.

After about 1 minute

System will be factory reset.

Pull the power again, and plug it back in.
