Orlando, FL | June 11 – 13

**Lenovo**

InfoComm 2025 Speaking Session

# AI-Enabled Meeting Spaces— Smarter Collaboration with Lenovo

*Joshua Peterson*  
*Director - SmartCollab*  
*Technical Consulting*

## Overview

- The AI revolution is transforming how we live and work, and Lenovo is leading the way with Smarter AI for All. We believe its future depends on personal, enterprise, and public AI working together to enhance productivity and collaboration.
- Lenovo Smart Collaboration solutions bring this vision to life with AI-driven meeting room technology designed for clarity, security, and ease of management.
- Lenovo, the world's leading PC manufacturer, is at the forefront of empowering the modern workforce through AI to create smarter, more efficient meeting environments—because the future of collaboration has never been more exciting.
